Lead the Way in Digital Transformation

Stay Ahead of the Curve

- **Microsoft has announced the end of life for Dynamics GP updates**, with support available until 2029. Businesses should proactively explore modern, cloud-based alternatives, to stay ahead and ensure a smooth transition when the time arrives.
- **This is your opportunity to establish yourself as a trusted advisor**, guiding clients through their digital transformation while expanding your own business with a future-ready AP solution.

A New Era for AP Automation

Microsoft Dynamics GP users have an exciting opportunity to embrace the future of AP automation.

As Microsoft shifts its focus toward cloud-based solutions, now is **the perfect time to modernize with Yooz** – an award-winning, AI-powered AP automation platform designed for efficiency, security, and seamless integration.

Why Choose Yooz?

- **Smart Data Extraction:** Leverage AI-powered OCR and machine learning for precise and efficient invoice processing, ensuring the highest level of capture every time.
- **Advanced Fraud Prevention:** Ironclad security features automatically detect irregularities, protecting transactions from fraud.
- **Streamlined Approval Workflows:** Fully customizable approval workflows increase operational efficiency and minimize manual effort.
- **Scalable Cloud Solution:** A flexible, cloud-based platform that adapts to your evolving business needs, ensuring sustained growth and success.

Helping Businesses Move Forward

- **Supporting the transition:** We understand that moving from a familiar system like GP can feel overwhelming. However, when your clients stay on a legacy system, that can result in inefficiencies, higher costs, and missed opportunities.
- **Innovation-Driven:** Unlike GP's legacy system, Yooz continuously evolves with the latest technology, providing long-term stability and adaptability for your clients.
- **Enhanced User Experience:** Clients achieve faster performance, cost savings, and improved operational efficiency with seamless integrations.
- **Compliance & Security:** Automated updates ensure your client's business stays compliant with evolving regulations.

The Implementation Process: Fast, Simple, and Effortless

- **Seamless Integration:** Yooz connects effortlessly with Microsoft GP and other ERPs, ensuring a smooth transition when the time is right.
- **Assessment & Planning:** We first help clients onboard with GP and Yooz, ensuring they are fully operational. When they are ready, the transition is hassle-free because Yooz is already connected with 250 ERPs.
- **Training & Support:** Comprehensive onboarding and ongoing assistance ensure quick adoption and ROI.
- **Go Live!** Automate, optimize, and future-proof your AP process with Yooz.

Boost Your Business with Yooz

There's never been a better time to help your clients enhance their AP processes with an intelligent, cloud-based solution. Yooz makes the transition effortless, ensuring a seamless experience for clients while helping our partners expand their business and strengthen client relationships.
